INFORMATION

PROGRAM FOCUS

This program is designed for ophthalmic medical personnel, including assistants, technicians, technologists and registered nurses. Education methods employed will include lecture, demonstration and audio/visual aids.

JCAHPO ACCREDITATION

The Joint Commission on Allied Health Personnel in Ophthalmology has awarded Continuing Education Credit (CEC) as follows: **Group A: 7.75** (*Maximum JCAHPO CEC allowed per attendee 7.75*)

FINANCIAL DISCLOSURES

JCAHPO has determined that financial interest shall be disclosed in courses sponsored or co-sponsored by JCAHPO or approved for continuing education credit by JCAHPO. The following speakers have declared interest currently or within the past 12 months in a Designated Company, or a financial relationship or advisory capacity with a Designated Company related to their presentation: Elizabeth Cottle, CPC, OCS, is an employee of Oregon Health and Science University. Jacqueline Ng, MD, is a consultant for LensGen. All other faculty have indicated no financial interest or financial relationship with a Designated Company related to their presentation.

DISCLAIMER

This course is not sponsored by JCAHPO, only reviewed for compliance with JCAHPO standards and criteria, and awarded continuing education credit accordingly; therefore, JCAHPO cannot predict the effectiveness of the program or assure its quality in substance and presentation.

2016 FACULTY

Blake Acohido, MD
Ophthalmologist
Legacy Devers Eye Institute

Elizabeth Cottle, CPC, OCS
Associate Administrator
Casey Eye Institute/OHSU

David B. Davis, II, MD, FACS, ABES
Instructor
Portland Community College

Julie Falardeau, MD
Associate Professor of
Ophthalmology
Casey Eye Institute/OHSU

Fred Harwin, MS, BCO, BADO, FAMI
Ocularist, Illustrator
Center for Ocular Prosthetics

J. Kevin McKinney, MD, MPH
Ophthalmologist
Eye Health Northwest

Afshan Nanji, MD, MPH
Assistant Professor of
Ophthalmology
Casey Eye Institute/OHSU

Jacqueline Ng, MD
Ophthalmologist
Oregon Eye Specialists

Scot Sullivan, MD
Ophthalmologist
Portland Oculoplastics

Omayya Youssef, MD, FACS
Ophthalmologist
Casey Eye Institute/OHSU

EDUCATIONAL OBJECTIVES

At the end of this course, participants should have gained knowledge of:

- Reimbursement and compliance regulatory changes.
- How to apply changes to practices that will positively impact compliance and reimbursement.
- Signs, symptoms and acute management of various neuro-ophthalmic emergencies.
- Potential complications associated with neuro-ophthalmic emergencies.
- Names of common glaucoma drainage implants, indications for use, mechanism of IOP lowering, basic surgical techniques, and common complications.
- Conditions that can lead to neovascular glaucoma, pathophysiology of and causes of neovascularization.
- How neovascularization causes glaucoma, how it is treated and the classic exam findings.
- Etiology and epidemiology of eyelid skin cancers, the role of UV radiation in the development of non-melanomas and melanomas, and clinical features of malignant eyelid tumors.
- Manifestations of thyroid eye disease and the ancillary testing unique in the work-up of patients with thyroid eye disease.
- Identify some of the side effects of common medications.
- Common tumors of the anterior segment.
- Evaluating newer methods for diagnosing tumors of the anterior segment.
- Treatment options for anterior segment malignancies.
- How to triage and recognize common corneal infections, with a basic understanding of management.
- How ocular prosthetics may restore sight to the blind.
- Procedures used to treat common oculoplastics conditions.
- Ophthalmic conditions that may be sight threatening or life threatening if not treated promptly. Participant will also learn the questions to ask while triaging these patients as well as the initial steps in triaging ocular emergency patients.
- The history and future of ocular prosthetics.
- The effects and side effects of plants from which medicines are derived and/or their dangerous effects on humans.
